EDUCATION

2022 - 2026 (Expected)	Bachelor of Technology at **Academy of Technology**	(CGPA: 7.2)
2021	Class 12th West Bengal Board	(8.5)
2019	Class 10th West Bengal Board	(8.7)

PROJECTS

Amazon Clone   Live link   Github Link

- Developed a fully functional Amazon website clone, showcasing expertise in modern web technologies.
- Utilized React as the core framework to create an intuitive and dynamic user interface.
- Used Redux to manage the state from UI layer to data layer
- used Razorpay API for the checkout/payment method
- all the details from the products page is coming from fakestore api

Gemini Clone   Live Link   Github Link

- Developed a responsive chatbot clone of Google Gemini using React.js.
- Utilized data from the Google Gemini API to power the chatbot's responses and functionality.
- Designed with a focus on user experience, ensuring smooth interaction across various devices and screen sizes.
- Successfully completed a personal project that highlights both technical skills and creativity in web development.

SKILLS

Programming Languages:	C,C++,Javascript,HTML,CSS
IDE and Programming tools:	Sublime Text,VS Code,Git,Github
Frameworks:	React

CODING PROFILES

Code360 Profile: Solved 500+ questions
Leetcode Profile: Solved 150+ questions
HackerRank Profile: 4 Star Problem Solver
Codechef Profile: Div: 3 , Highest Rating 1481

EXTRACURRICULARS

Students Chapter CSE Member(Jan 2023 - Present)

- Serving as a Tech member for the official coding club of the Academy of Technology.
- Actively participating in all contest organised by the club.
